

The Managing Director of **GRUBER HERMANOS, S.A.**, as the person ultimately responsible for the Company, personally undertakes to ensure that all our products are delivered in accordance with the technical and regulatory requirements ("CE" Marking) demanded by the user and by current legislation, while also meeting the delivery deadlines defined by the Customer.

To achieve the above, **GRUBER HERMANOS, S.A.** is committed to a Continuous Improvement project, whose main objective is the Manufacture and Commercialization of Competitive Products both nationally and internationally, in order to achieve the full satisfaction of our Customers, Shareholders and Employees.

To implement this Quality Policy, we establish specific and measurable Quality Objectives each year, which enable us to progress and improve continuously.

In order to achieve these objectives, we are aware that, in addition to providing the appropriate material and human resources, personnel must understand and apply the guidelines arising from the documents that make up the Quality System implemented in accordance with the international standard **ISO 9001:2015**. To achieve this, we support the organization of training courses aimed at all areas and people within the organization, so that all our personnel develop a mindset of constant improvement in their workplace.
